Disclaimer.

The information provided in this whitepaper describing Hyp3r token is of a general nature and should not be considered investment advice. The Token is sold for utility purposes only, and it does not represent an offer or sale of securities. In case you are considering an investment in the Token, you need to be aware that the value of the Token may go up or down over time. It is possible that you may lose part or all your invested capital. You should understand that buying, selling and holding Tokens involve risk; potential investors should consider their financial capabilities carefully before purchasing Tokens. This document does not constitute an offer or solicitation to sell shares or securities in Hyp3r Crypto Ltd or its affiliates, nor do any such offering involve any recommendation regarding the purchase or sale of any security or other financial instrument.

HYP3 tokens and related technologies have an inherent level of uncertainty associated with them due to the nature of distributed ledger technology and the unpredictable corporate behaviours that might arise from these distributed ledgers. Further state actors may significantly impact their commercial viability or value without warning or notice resulting from a wide range of events including technological advances or policy changes. Accordingly, purchasers should not rely upon past performance as a guide to future performance nor should they rely upon forward looking statements contained herein.

THE THIRD-PARTY INFORMATION CONTAINED IN THIS WHITEPAPER MAY BE UPDATED FROM TIME TO TIME WITHOUT NOTICE BUT IS BELIEVED TO BE ACCURATE AT THE TIME OF PUBLICATION AND AS SUCH SHOULD NOT BE RELIED UPON AS AN INDICATION OF SUBSEQUENT DEVELOPMENTS OR EVENTS THAT MAY AFFECT THE OPERATIONS OF HYP3 OR ITS FUTURE VALUE OR VALUATIONS. ILLEGALLY ACQUIRED SIGNAGE WILL NOT BE RECOGNIZED BY THE DEVELOPERS NOR WILL IT BE ELIGIBLE FOR ANY BENEFITS ASSOCIATED WITH OWNING THESE TOKENS INCLUDING, BUT NOT LIMITED TO VOTING INCENTIVES OR OTHER PRIVILEGES ACCORDED TO OWNERS AT ANY POINT IN TIME.

Introduction.

Welcome to HYP3, a revolutionary project designed to equip crypto enthusiasts with valuable data and trusted analytics to help inform investment decisions. At HYP3, we understand the challenge of navigating the vast sea of cryptocurrencies, from established projects and tokens to new offerings as well as detecting scams.

That's why we've developed comprehensive solutions for users to leverage in order to make informed and secure investment decisions. Our Hyp3-Bot is a highly sophisticated utility that offers access across TG groups and other platform networks, allowing users a seamless experience when gathering information on tokens or projects. Data is collected directly from Defined databases and refined by our advanced algorithms to provide accurate metrics related to token or project valuation, performance history and levels of security needed.

On top of this we are dedicated in growing one of the most noteworthy blockchain communities offering reliable information, support & resources coupled with community dialogue necessary for anyone looking towards confidently investing in cryptocurrency. We invite you to join us today and become part of this thriving revolution!

Mission and vision.

Invest comfortable and safe.

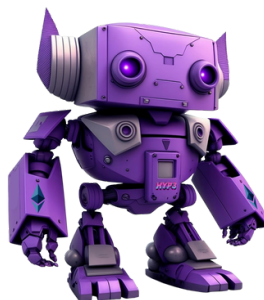

HYP3 is a token built with the aim of creating a safe and secure investment space and a friendly place for members to come together, learn, chat and help each other grow. We believe that with hard work and dedication we can be successful in our mission as we strive towards the goal of becoming a top performing token.

At HYP3 we are committed to driving innovation and providing value to our investors by introducing innovative tools such as our own utility-bot, the HYP3-bot that can be used in each group for bullish activities. Through this method, we will provide valuable services that can benefit both experienced and rookie traders alike.

Our team works hard every day to build an environment of safety and success; bolstering trust within our platform through an ever-growing commitment to transparency while ensuring tight security protocols so that you always feel comfortable investing with us. We strive to make HYP3 an inclusive experience by engaging in dialogue with investors from all walks of life while encouraging newcomers to explore what they can do with their tokens beyond simply trading them on exchanges.

With HYP3's vision in mind, our goal is to create a safe space where members can come together not just to invest but also meet likeminded individuals, discuss important topics on blockchain technology, connect with one another professionally or personally as well as receive support for any questions you may have about investing in cryptocurrencies safely. Our ambition is making sure everyone here shares knowledge around cryptocurrencies — because sharing knowledge is more valuable than any amount of money!

Finally, at HYP3 we are dedicated to the perfect combination between technology, design and marketing strategies – allowing us to implement new ideas quicker than ever thought possible before – constantly driving further innovation within the cryptocurrency industry. Our team remains relentless in its mission to provide superior user experiences for our users focused on personal growth — which will help us move closer towards achieving our ambitious goals every day!

Utility.

The introduction of the HYP3 token onto the Ethereum platform has been a game-changer. Quickly after launch the HYP3-bot launched as a Telegram-bot. Its innovative and versatile utility uses allow investors to keep an eye on one of the largest and fastest growing markets in the world, cryptocurrency. Through its powerful bot, users can easily integrate it into their own chats and use it as a tool for monitoring their investments in real-time. The bot also offers tokens exposure when in need of advertisement along with quick access to many of its other features through Telegram.

The HYP3-Bot is a revolutionary utility that helps users stay informed and up to date on the latest hype, volume, and token trends. The bot tracks the data from Defined and provides insights into tokens.

Users can easily integrate the bot into their private chats, communities, lounges, or groupchats for free. By using this powerful tool, you can gain valuable knowledge about potential investments, as well as monitor their own investments in real time.

The team.

At HYP3, our team and utility is what makes us special. We have assembled a team of experienced professionals from all around the world with a deep understanding of blockchain technology and cryptocurrency trading. Our leadership has extensive marketing know-how and strong connections in the crypto industry which are key components to success in this space. But not just any success - we aim for excellence in everything we do. We think outside the box, employ smart tactics, keep ahead of the game, and ensure that all our endeavours successfully align with regulatory requirements of various global jurisdictions.

Our team comprises many multi-lingual experts who have excellent communication skills and deeply rooted commercial acumen as well as developers and designers able to bring ideas to life. Additionally, our customer relations crew is dedicated to ensuring customer satisfaction when they need it most while our moderators exercise due diligence at all times to guarantee best practices across all platforms where our name shows up or actions take place rendering us very trustworthy.

Thanks to the hard work of such highly qualified personnel we guarantee KYC verification, compliance with useful standards such as Simplified KYC, Approved Consumer Risk Assessment (ACRA) or FATF; auditing solutions; transparent working procedures; hassle-free implementation of innovative customer strategies; and more - indeed differentiating ourselves from other projects by delivering true value through serious workmanship upholding high ethics standard all along the way. All these elements are key components for successful fundraising ventures backed by digital assets using blockchain solutions – something we hold quite firmly at HYP3!
